# Together we make good stuff

We are bunch of creative geeks  
and shining entrepreneurs  
connected globally!

HITS is a big name now and the family is growing and getting better. We have experienced in-house professionals for all our services and the company is launching new products in the market as well. As a team, we are creative, committed and confident about our services. We have a global network and we are serving clients world-wide. Our streamline process, creative techniques and constant updates in achieving the maximum is our forte.

# Your Input and Our Expertise Makes it better!

## **Client's Valuable Input #**

Your valuable briefs and inputs let us understand your vision.

## **Creative Design and Development Approach**

With your inputs, we design and later develop an amazing product.

Creating something is a mutual effort always. We believe that the client's input is imperative in this regard. Amalgam of the inputs and our creativity produces startling results.

## HEXAGONAL **Mission**

To make HITS one of the biggest digital agencies in UAE by Expo2020.

## HEXAGONAL **Vision**

To provide Digital and IT Solutions to clients globally.

## Branding & Distinctiveness

We create, we design and we exhibit; we are brand creators!

Designing professional newsletters, creative company logos and thorough company profiles with custom UI/UX design and a creative approach in order to meet current standards. We believe in providing the best, creative and unique designs to our clients. Our design standards are impeccable and we use all the advance technologies and softwares in order to make sure, we live up to client's expectations every single time.

We have in-house professionals who are experienced, creative and competitive. Our streamline process allows us to deliver quality designs, creating brand recognition and providing an identity to a company. We make sure we deliver quality design every single time and we not only say it, we mean it!

## Digital Marketing Gurus

Planning campaigns, launching products online and creating the social buzz

We create to convince and we approach to get applause. We are digital marketing experts and we providing social media marketing assistance at all levels and at all platforms. Whether it is Facebook or Twitter or its Youtube with Instagram, we are providing you with complete digital support. We make sure we give engaging content, increase and boost your reach to the potential audience and update your official pages regularly. We interact with people online, create a community and later it reflects in the response you receive.

We are offering complete maintenance and support for social media marketing. Setting up campaigns, running ads and interacting with audiences globally by providing them with good content, related to your company/organization is what we do dexterously. We not only maintain the pages, we design posts, and we implement digital strategies and execute them in order to get maximum results.

## SEO Services

We rank your website, set your Adwords and position you right at the first page!

Bringing your company to the top and getting maximum visibility on Google is imperative. We are SEO experts and we make sure we do it for you. Now-a-days, people do Google you and for that reason you need to be at the first page on all the competitive keywords in order to get maximum response. SEO is a technique which will help you in reaching the top on Google. We are experts in SEO and we rank your websites on various keywords.

Setting Google Adwords, running campaigns with Bing, Yahoo and Google plus working on your site's SEO is what we offer. We provide you with weekly reports and make sure you get complete competitor's analysis for the keywords they are using. We use Google Analytics tool and prepare keywords list for your business. Overall, SEO is adjective to your position and presence on Google.

## Content Writing

---

Get creative and professional content with us.

We write content that sells! We have in-house content writers who make sure your content is flawless, vibrant enough to attract readers and is SEO optimized as well. We provide all sorts of content ranging from website content to article writing and from blogging to business plans. We are experts at press releases, letters and contracts. Our writers have pertinent experience and they deliver what is required.

Writing says everything about your company and what you have! A good write up will not only help you leaving a good impression on others but will showcase your company's standard and panache. So, choose wisely; choose HITS!

## Mobile Applications

Customized mobile applications on platforms like IOS and Android

Now-a-days we have moved to a digital world where everything is controlled digitally and is managed by mobile applications. Whether you have to manage your staff or shopping or it's your traveling for personal and professional purposes; you use a mobile app. We provide customized mobile apps for all your needs. We make sure that you get everything on a single touch, which not only saves your time but makes the process swift, smart and affective.

Design and Development is core of your online presence. Getting your website done from a professional team will help you professionally in reaching to the maximum clients. We cover all websites from static to Dynamic and from portfolio websites to company/firm websites. We provide e-commerce websites, online portals and complete integration of payments gateway along with API's where needed.
